The screenshot shows a code editor with a dark theme. On the left, a file explorer shows a folder named 'NYTechNews' containing 'CSS', 'Images', and 'index.html'. The main editor area is split into two panes. The left pane shows HTML code for a page titled 'NY Tech News'. It includes a header with a title, a link to a stylesheet, and a navigation menu with links to Business, Tech, Funding, Events, and About Us. The main content area has two sections: 'TopStory' and 'SideStory'. The 'TopStory' section contains a paragraph of Lorem Ipsum text and a link to 'Read more'. The 'SideStory' section contains two images and two paragraphs of Lorem Ipsum text. The right pane shows CSS code for the page. It defines a container, a header, and a top navigation bar. The container is a flexbox with a background image and color. The header is a flexbox with a background color and text alignment. The top navigation bar is a flexbox with a background color and text alignment. The top story section is a flexbox with a background color and text alignment. The side story section is a flexbox with a background color and text alignment.
